

SHAUN FOX

CEO

Shaun Fox is an entrepreneurial influencer and mentor with two decades of experience in start-ups, working both for himself and assisting others. Shaun specialises in creating financial instruments and lending mechanisms and was the founding partner behind the RAIC group of companies' concept of creating a looped network of community between borrower, purchaser and lender.

He is best characterised by his perpetually optimistic temperament in his professional pursuits, surpassed only by his charismatic and enthusiastic engagement with others in all his relationships.

Shaun's flair is not just limited to his wardrobe. Shaun's approach to business is simple: irrespective of the product, anything can be achieved as long as you put the time in. He has successfully applied this philosophy across a number of industries, including financial services, entertainment, hospitality, accommodation, tech, biotech, and mining.

Shaun has been involved in the creation and management of financial companies for several years and delivers a simplified approach to the education of financial concepts and investment strategies.

His vision is to create an entry-level platform that offers an easy path to investment by creating personalised education and an investment program that anyone can use. Shaun has always believed that the best way to create a successful enterprise is to include the entire value chain of people in the process and share the rewards of that success. This is why RAIC's foundation is working with its investors, borrowers and clients through partnerships – so that everyone can share in the rewards.

My real passion is assisting others in wealth creation and helping them achieve their full potential in life and in business.
